(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Claims 27-34 were discussed in view of the Elbert reference, and it was discussed and agreed upon that claim 27 be amended by further including limitations as follows: 1) combining cancelled claim 30 with claim 27 (now new independent claim 35), such that the step of removing a carrier liquid from close-packed solid bodies is now distinctly claimed; 2) adding a "non-metallic" coating within claim 27 (now new independent claim 42); and 3) adding a step of causing a portion of a state-change coating to change from an adhesive state to a non-adhesive state (now new independent claim 49), such that all of independent claims 35, 42, and 49 distinctly define over the teachings of Elbert.
